

# Vågen FSX Four-Shaft shredder

## Gearmotor

Siemens motor and Tongli gir  
2 gearmotors per step

## Rotor blades

Special anti-wear steel cutters

## Framework

Carbon steel, painted

## Delivery time

14 - 16 weeks

## Applications

Recycling  
Slaughterhouse  
Agriculture

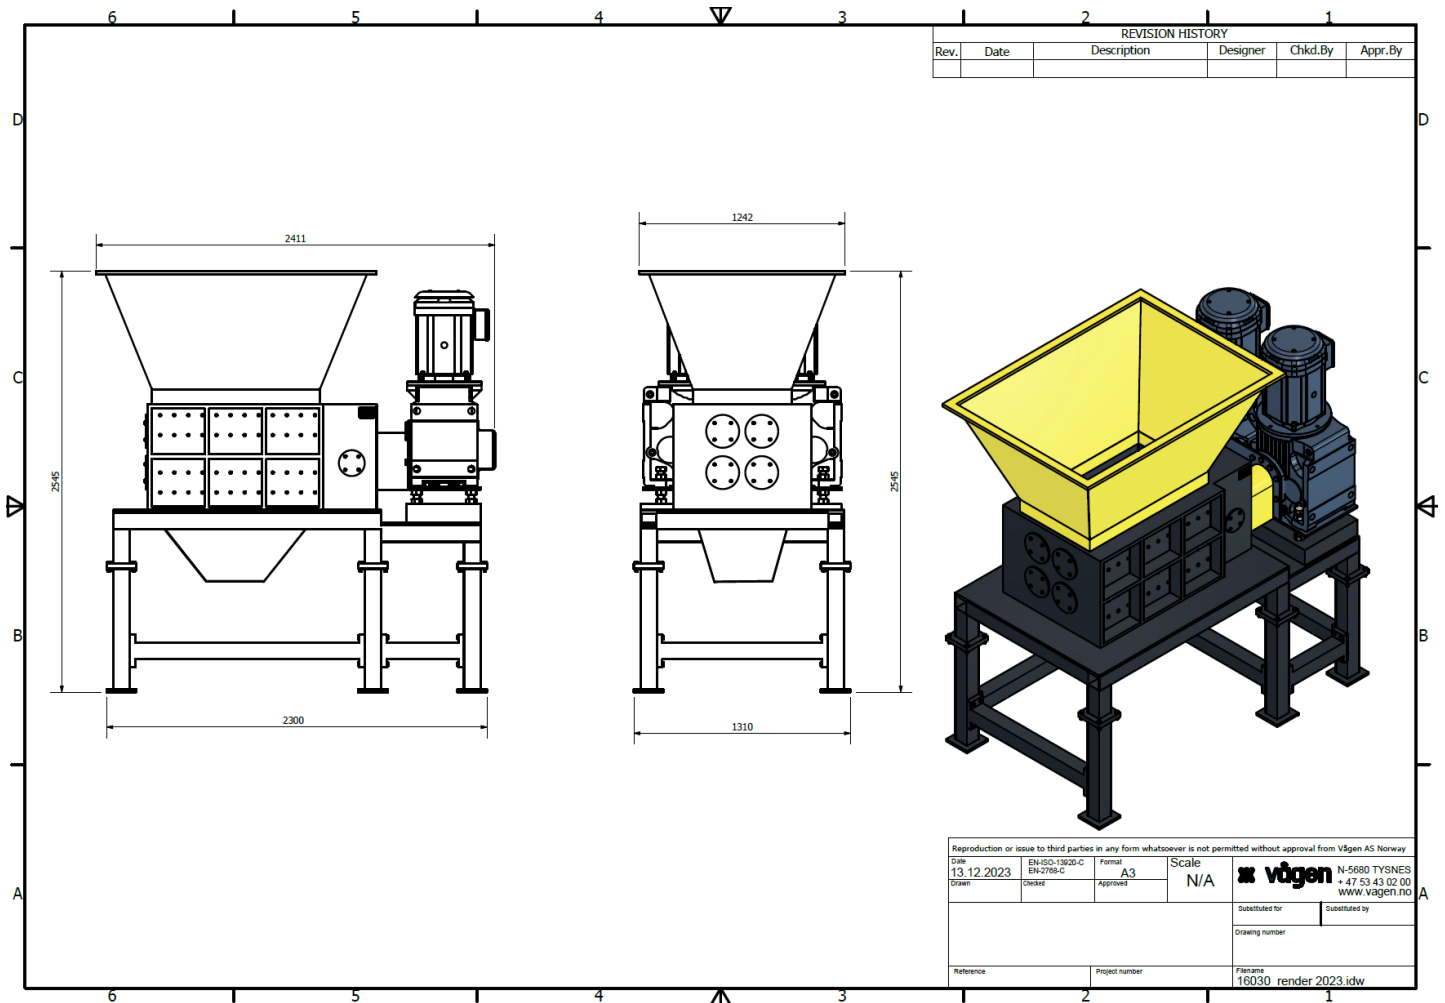

## VÅGEN FSX SHREDDER

The 4-shaft 2-step Vågen FSX shredders are a robust option for bulky waste.

Proven technical solutions are used to reduce maintenance cost and for easy access to spare parts. The FSX Shredders are supplied with a sturdy support produced in carbon steel and painted. Vågen can meet any requirements for control systems for starting and running operations, all according to specification for optimal process and function.

Industrial shredders are machines able to shred all types of waste, whether urban or industrial such as plastic, paper, wood, packaging, or steel material.

TYPE	DIMENTION INLET	DIAMETER KNIFE ROTOR	Power kW	WEIGHT	CAPACITY
FSX 400	660 x 500 mm	Ø230 mm	7,5 + 7,5kW	1000 kg	150-300 kg/h
FSX 600	800 x 400/600/800 mm	Ø245mm	11+11kW	1600-1800 kg	350-650 kg/h
FSX1000	900 x 800/1000 mm	Ø290mm	15+18,5kW	3500/4200 kg	800-1200 kg/h

## GENERELL INFORMASJON

- Standard Components.
- interchangeable knives and screens
- low noise and high reliability
- Knives in Hardox, other materials on demand
- system adjustments and modifications on demand
- Supplied with control systems for continuous operation
- Inlet hopper with lid and limit switches or other options on demand
- Overload protection
- CE marked and compliant with the Machinery Directive
- Compact design
- Short delivery time
- We customize feeding and discharge with hoppers, conveyors and rotary feeders
