

Trough

- Carbon steel S235/S355
- Stainless AISI 304
- Stainless AISI 316

Rotor

- Carbon steel, AISI-304, AISI-316

Gear motor

- SEW

Delivery time

- 12-14 weeks

VÅGEN BIG BAG

Vågen Big Bag is used for filling big bag sacks.

Inlet hopper delivered with lid and/or grating. Lifting conveyor made as pipe conveyor.

Løfteskruen lages av rør-trau.

Ease of operation and lifespan depends on material quality, dimensions, filling rate and rotor speed.

Regular maintenance and easy access to spare parts is highly recommended.

TYPE	LENGTH	DIAMETER	CAPACITY	ANGLE
Ø135	2000/3000	Ø135	1-3 m ³ /h	0-90°
Ø180	2000/3000	Ø180	4-8 m ³ /h	0-90°
Ø220	2000/3000	Ø220	7-15 m ³ /h	0-90°

Capacity given with frequency converter which can regulate from 30Hz to 70Hz
